BOTVEG MX

CHARACTERISTICS

Appearance:

Yellowish brown powder.

Base:

Myrobalan extract

Solids:

93 (+/- 2) %

pH (@ 10% aqueous soln.):

3.0 - 3.5

Charge:

Anionic

Light Fastness:

Medium

Hydrolysable vegetable tannin extract based on Myrobalan.

BOTVEG MX is suitable for fixation of condensed type tannins.

Using BOTVEG MX in vegetable tanning improves and gives good clear coloured leather.

It imparts fullness, plumpness and firmness while being used for retannage of chrome leathers as well.

Application

The recommended quantities of BOTVEG MX are the following:

For vegetable tanning, 2 - 4% while completing the tannage during vegetable tanning.

For retanning, between 2 to 6% depending on the article and fullness required.

REACH COMPLIANT

Date of issue

02-08-2023

Shelf life

The product can be stored in its original packaging between 5°C and 35°C for 12 months.
