Low

REACH COMPLIANT

Date of issue

Acacia based sulphited vegetable extract - unbleached.

BOTVEG MIM is suitable for both tanning and retanning.

Using BOTVEG MIM alone or with other vegetable extracts in tanning/retanning, gives leather with remarkable soft, full and round character.

It as well gives soft full character, while being used for retannage of chrome leathers as well.

Application

The recommended quantities of BOTVEG MIM are the following:

For vegetable tanning, 10-30% in combination with other vegetable and/or syntans.

For retanning, between 2 - 8% depending on the article and fullness required

02-08-2023
