Soft lubricating polymeric product

BOTSYN VSR is suitable for making leathers no loose, soft & full.

BOTSYN VSR is compatible with vegetable extracts as well all regularly used syntans in crusting process.

It is medium soft and highly grain tightening and gives fine grain.

It is advisable to use this product after heavy vegetable retannage to ensure mellow/ no loose character in resultant crust.

It can be used after retanning and as well along/aftr fatliquoring for better results and uniform distribution throughout cross section.

Application

Recommended quantities of BOTSYN VSR are 2-10 % depending on article being processed.

Shelf life

The product can be stored in its original packaging between 5°C and 35°C for 8 months.
