Low

Vegetable tanning extract based on chestnut for tanning and retanning.

BOTVEG CH is an extract based on Chestnut.

Using BOTVEG CH alone or with other vegetable extracts in tanning, it obtains elasticity, better light fastness than regular vegetable extracts and assists in water proofing effect.

You can use in all kind of vegetable articles, as well for retanning of chrome leathers.

Application

The recommended quantities of BOTVEG CH are the following:

For full vegetable tanning, 10-30% in combination or with other syntans.

For retanning, between 2 to 8% depending on the article and fullness required.

REACH COMPLIANT

Date of issue

14-11-2020

Shelf life

The product can be stored in its original packaging between 5°C and 35°C for 12 months.
