Good

### REACH COMPLIANT

Date of issue

### Synthetic fat liquor with polymeric softeners.

BOTFAT PFS is suitable fat liquor when we need excellent inner softness in leather.

BOTFAT PFS is compatible with vegetable extracts as well all regularly used syntans in crusting process.

It gives good supple, mellow and fluffy leather if incorporated in milled formulations.

It has very good lightfastness.

It improves tensile strength as well stitch tear resistance.

### Application

The recommended quantities of BOTFAT PFS are 2-20 % depending on article being processed

### Shelf life

The product can be stored in its original packaging between 5°C and 35°C for 8 months.

The information and recommendations given are provided on the basis of our best current knowledge, supported by applied experience and accurate testing. However, this information does not constitute a guarantee or responsibility for product use, which must always be checked and evaluated by each individual client.
