## BOTFAT WR

### CHARACTERISTICS

*Appearance:*

White paste

*Base:*

Phosphoric esters, syn oils & polymeric softners

*Solids:*

60 (+/- 2) %

*pH (@ 10% aqueous soln.):*

6.5 - 7.5

*Charge:*

Anionic

*Light Fastness:*

Good

### REACH COMPLIANT

Date of issue

**Water repelling phospho ester for soft / silky touch.**

BOTFAT WR when used as main fatliquor imparts water repellence and softness. Treated leathers also exhibit a pleasant silky touch and can be buffed as well.

BOTFAT WR is generally compatable with vegetable tannins, chrome and aluminium synthetic tannins.

It is advisable to avoid use to hydrophilic substances when targetting strong water repellence.

### Application

Recommend to use BOTFAT WR @ 2 -12 % while processing different types of leathers.

Emulsify essentially in hot water and do not mix along with other fatliquors. Use seperately.

05-01-2024

### shelf life

The product can be stored in its original packaging between 5°C and 35°C for 8 months.
