## BOTFAT H 44

### CHARACTERISTICS

*Appearance:*

Light brown liquid

*Base:*

Sulpho-chloro Long chain paraffins

*Solids:*

65 (+/- 2) %

*pH (@ 10% aqueous soln.):*

7.0 - 8.0

*Charge:*

Anionic

*Light Fastness:*

Good

### REACH COMPLIANT

Date of issue

**Fully synthetic fatliquor, electrolite stable & lightfast product.**

BOTFAT H 44 gives tight grained leathers of medium softness but with a full handle.

BOTFAT H 44 penetrates deep into skin levelling surface fat, so leathers permit excellent buffing characteristics.

It as well reduces risk of fatty spew.

It can be used during rechroming, prefatliquoring and neutralization as well apart from being used in conjunction with other fatliquors.

### Application

It is recommended to use 2 - 7 % while processing different types of leathers.

05-01-2024

### shelf life

The product can be stored in its original packaging between 5°C and 35°C for 8 months.
