Clear to yellowish liquid.

*Base:*

sulphated fatty alcohol.

*Solids:*

30 (+/- 2) %

*pH (@ 10% aqueous soln.):*

7.0 - 9.0

*Charge:*

Anionic

*Light Fastness:*

Good

**REACH COMPLIANT**

Date of issue

### Wetting, dispersing and emulsifying agent.

BOTAUX WA is APEO, NPEO AND OPEO free emulsifier for use in beamhouse or wet end processing of leather.

BOTAUX WA is compatible with all anionic and non-ionic syntans and fat liquors regularly used in crusting process.

It helps in dispersing fat liquors and helping them distribute throughout cross section resulting in better and uniform softness and improvement in strength.

### Application

The recommended quantities of BOTAUX WA are 0.3 – 2.0% depending on article being processed

### Shelf life

The product can be stored in its original packaging between 5°C and 35°C for 8 months.

The information and recommendations given are provided on the basis of our best current knowledge, supported by applied experience and accurate testing. However, this information does not constitute a guarantee or responsibility for product use, which must always be checked and evaluated by each individual client.
