BOTVEG DD

CHARACTERISTICS

Appearance:

White powder

Base:

vegetable extract

Solids:

93 (+/- 2) %

pH (@ 10% aqueous soln.):

3.5 - 4.5

Charge:

Anionic

Light Fastness:

Good

Light fast white Vegetable to be used as filler and adjunct during tanning and retanning.

BOTVEG DD imparts a bright, clean shade without the worry or iron stains.

BOTVEG DD is not very astringent so maintains the fineness of grain.

Due to its nature of excellent filling, it helps to achieve homogeneous dry milling effect.

Assists in production of chrome free leather, giving full and compact fibers with excellent softness.

It can be used while tanning chrome free leathers as well vegetable leathers.

While used during retanning of Nubuck and suede Leather, gives fine & short nap.

Application

During tanning can use @ 6 - 8 % along with other tanning compounds/vegetables.

During retanning can use 4 - 6 % depending on article being processed.

REACH COMPLIANT

Date of issue

10-11-2023

Shelf life

The product can be stored in its original packaging between 5°C and 35°C for 12 months.
