Good

REACH COMPLIANT

Date of issue

Syntan based on synthetic and organic tanning agents

BOTSYN SS substantially improves buffing properties. It is especially recommended to get fine and uniform nap on suede leathers.

It levels out dyeing and helps in penetration of other products.

BOTSYN SS is compatible with vegetable extracts as well all regularly used syntans in crusting process.

It free from free formaldehyde

It helps in producing well filled leather especially in bellies and flanks.

Application

The recommended quantities of BOTSYN SS are 2-6 % depending on article being processed.

28-01-2021
